OUR STYLE

Clean. Intentional. Editorial.

Every image is shaped through light, structure, and styling... refined to feel elevated, modern, and entirely your own.

Nothing is overdone.

Nothing is accidental.

OUR PHILOSOPHY

Being "photogenic" isn't something you have or don't have.

It's created... through guidance, styling, and a trained eye.

The goal isn't to change you.

It's to show you, clearly.

OUR PROMISE

You will be guided through every step.

Nothing is left to chance... from styling to direction to your final images.

You don't have to know how to do this.

That's what I'm here for.

MEET THE ARTIST

Welcome to Jennifer Brindley Portrait.

I'm Jennifer Brindley Ubl, an accredited Master Portrait Photographer with more than 20 years of experience photographing people.

My sessions are fully guided from beginning to end, with professional hair and makeup, wardrobe curated specifically for you, expert posing and direction, and up to 10 different looks.

We can create something glamorous, casual, sexy, professional, dramatic, or a little bit of everything. You don't need to know how to pose or have it all figured out beforehand. That's my job.

All you have to do is show up. I'll take care of the rest.

Jennifer

*"Jennifer did not just take photos. She
reflected me back to myself.
And that is something I will never forget."*

THE STUDIO

The studio is designed with intention... every detail considered for how it supports your experience and your final images.

Located in West Allis, the space is private, calm, and fully controlled, allowing us to shape light, environment, and energy without distraction. This isn't a rented corner or a shared space. It's a dedicated studio built specifically for portrait work.

You'll find a curated wardrobe collection of over 1,000 pieces, professional hair and makeup, and a setting that allows the entire process to unfold seamlessly from start to finish.

Nothing here is accidental.

Every element exists to support you... so you can step into the experience with clarity, confidence, and ease.

the EXPERIENCE

This is a fully guided, magazine-style portrait experience designed around you.

From the very beginning, you're not left to figure it out on your own. We'll shape your session together, starting with wardrobe direction and styling support, so every look feels intentional, cohesive, and aligned with how you want to be seen.

On the day of your shoot, everything is prepared...

from the set to the lighting to the energy in the room.

You'll be directed through each moment with clarity and ease, so you never have to wonder what to do with your hands, your posture, or your expression.

This isn't about being photogenic. It's about being seen... with precision, artistry, and a level of care that allows you to fully step into the experience.

HAIR & MAKEUP

I work closely with Katrina, a celebrity makeup artist and nationally recognized beauty educator with over 25 years of experience, and the owner of Allure Artistry, one of the most well-known beauty brands in the region. Each look is tailored to you, whether you prefer something soft and natural or more defined and elevated. Every detail is designed to translate beautifully on camera, with a modern, refined approach grounded in current techniques and ongoing education.

ENVIRONMENT

From the moment you arrive, everything is prepared for you. The studio is intentionally calm, unhurried, and designed to allow you to settle in without distraction. You're welcome to enjoy a beverage, have a light snack, and take a moment to arrive before stepping into your session. Enjoy the music and relaxation.

There's nothing you need to manage or figure out. Every detail... from the pace of the day to the energy in the room... is designed to support you, so by the time you step in front of the camera, you feel grounded, comfortable, and completely taken care of.

THE STUDIO WARDROBE

We've got you covered!

This isn't a closet you browse.
It's a curated experience.

After completing a style questionnaire, I build a personalized selection of wardrobe for you... based on your preferences, style direction, and how you want to be seen.

At your fitting, you'll step into a rack that's already been curated... and we'll refine your looks together, often discovering pieces you wouldn't have chosen on your own.

You're welcome to incorporate items from your own wardrobe as well. Every look is intentional. Every piece has a purpose.

A woman with reddish-brown hair styled in an elaborate updo is shown in profile, looking to the left. She is wearing a white, off-the-shoulder dress covered in sequins and a large, white, daisy-like flower earring. Her right hand is resting on her chest. The background is a dark, textured grey.

“We take photos as a return ticket to a
moment otherwise gone.”

FAQ

I'm not photogenic. I don't know how to pose.

You don't need to be. Most of my clients feel this way before their session. I am an expert "poser" with decades of experience photographing everyday people. I guide you through everything from posture to expression to the smallest adjustments that make the biggest difference. Nothing is left to guesswork.

Can you explain the wardrobe?

It's a curated process... not a closet to browse. You'll complete a style questionnaire, and I'll pull a personalized, amazing selection of editorial style wardrobe for you. At your fitting, we'll refine everything together, often discovering pieces you wouldn't have chosen on your own. You're welcome to incorporate items from your own wardrobe as well.

Are Payment Plans Available?

Yes. While I don't offer in-house payment plans, I work with several third-party options including Synchrony Bank, PayPal Credit, Afterpay (up to \$2,000), and Klarna. All options require separate approval and allow you to break your investment into payments.

How Will My Images Be Used or Shared?

Your images may be used in a few ways. In the studio, they may be displayed privately or shown as examples to other clients. They may also be used on my website and social media as part of my portfolio, typically without names attached. You are always welcome to request that specific images remain private, especially if something feels personal or sensitive.

Can I bring someone with me?

Yes, you're welcome to. Additional people can be added to your session for \$199 each, with a maximum of four total participants. For the best experience, I photograph children ages 10 +. No guests are permitted in the studio.

“I have had the privilege of
being photographed by
Jennifer five times now...

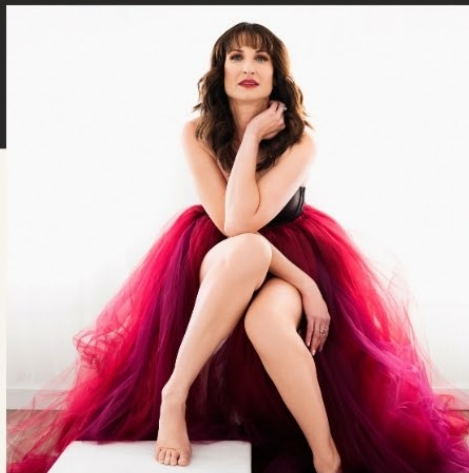

...and every time it's like reuniting with a friend you haven't seen in a while,
but it always feels like no time has passed at all.

Turning 40 felt like the perfect reason to be photographed. When I met
with Jenn for the consultation, I had a few ideas that I wanted to include,
but she came with some as well, including the idea of celebrating my
marathons. It's her focus on those specifics and understanding who I am
that make Jennifer so exceptional at what she does to guarantee the
session is distinctive and tailored to each client.

These photographs embody who I am right now, as a 40 year old, and also
who I am striving to be in my next decade of life.

Thank you, Jennifer, for always seeing all the parts of me. These portraits
will always have a special place in my heart, perhaps more so than any
others that have come before.”
